Alchemco Technical Staff  
Authorized Alchemco Distributors

FROM: Technical Director & Chief Architect

DATE: April 18th, 2023

**SUBJECT: BRIDGEDECK UPDATE FORMULATION  
AND INSTALLATION CHANGE**

As of March 2023 the full line of BridgeDeck products, including BridgeDeck Waterproofing Agent, BridgeDeck PROtectant Plus, and BridgeDeck PROtectant formulations have been updated so that they **no longer** require the use of ACR Accelerating Agent or ACR Crack & Void. These products may still be used in conjunction with the updated formulas, but they are no longer required to be used to meet the conditions of the Alchemco Warranty.

Each product shown above still requires that all cracks in the surface be treated by flooding them with product prior to the application of the product to the general surface.

**Any questions should be directed to the Technical Department or one of the members of the Technical Team.**
